ISTI Open Access - Feature #12068

Envisage the possibility to re-order the result-set facet queries associated with a result set

Jun 29, 2018 10:19 AM - Leonardo Candela

Status:	New		**Start date:**	Jun 29, 2018
Priority:	Normal		**Due date:**	
Assignee:	Michele Artini		**% Done:**	0%
Category:				
Target version:	To Be Planned			

Description

Once a result set is displayed the accompanying facet queries are reported with values ordered by number of occurrences (decreasing orders).

An approach should be developed to make it possible for a user to have a different ordering of the values (all of them), e.g. alphabetic ordering for authors, ascending / descending for years.
