Description

A Statistics page on Open Portal content should be created.

The goal of this page is to replace and enhance what was included in this page:

http://puma.isti.cnr.it/remote/sintesis.php?authority=cnr.isti&collection=cnr.isti&langver=en

... and referenced by this page on the ISTI website

https://www.isti.cnr.it/about/institute.php

Once the new page will be in place on Open Portal we should reconsider ISTI website by adding a phrase like the following

"Detailed statistics on scholarly productions of ISTI are available on ISTI Open Portal"

The page to be created on Open Portal should include:

- a table reporting the **number of publications per type per year** (enabling to download the table content in a csv)
  - a graph reporting the same data;
  - a graph (line chart) reporting the **total amount of published papers** across years;

- a table reporting the **typologies of licences per year** (aiming at highlighting the boost in Open Access);

  - a graph similar to the attached one);
- statistics on **downloads** (if worth presenting);

- statistics on **accesses**, **queries** (if worth presenting);

Whenever possible, the **figures in the tables should be actionable**, when clicking on the x article published in 200x the user should be redirected to the papers by a query.

Any other statistics we would like to showcase.

History

- Related to deleted (Feature #12722: Add a cover page to the files downloaded by ISTI Open Portal)

#3 - Mar 27, 2019 05:00 PM - Leonardo Candela

Another statistic worth reporting is the number of download of papers from our repository.

#4 - Mar 27, 2019 05:02 PM - Leonardo Candela

- Priority changed from Normal to High

#5 - Mar 27, 2019 05:06 PM - Leonardo Candela

Another statistic worth showcasing might be related with topics distribution / occurrence global). E.g. have a look at Subject of Content in OpenDOAR

Another source of inspiration is close to you, e.g.

https://www.openaire.eu/openaire-statistics-greece

Timeline and Graph are OK ... Document Type is NOK (it is a mess ... I'll not use an apple pie chart especially if there are many values).

The following pages are available on the OpenPortal (BETA):

https://beta.openportal.isti.cnr.it/stats/year-type
https://beta.openportal.isti.cnr.it/stats/labs-types
https://beta.openportal.isti.cnr.it/stats/year-rights

Can I promote them in production?

#13 - May 09, 2019 10:26 AM - Michele Artini

- Status changed from New to In Progress

- % Done changed from 0 to 80

#14 - May 10, 2019 10:10 AM - Leonardo Candela

@michele.artini@isti.cnr.it please deploy the currently developed 3 statistics in production.

We will reconsider the statistics towards a dashboard as discussed yesterday.
