

ISTI Open Access - Support #16705

Make Open Portal GoogleScholar compliant

Description			
OpenPortal content is already indexed by Google, e.g. it is sufficient to write queries like "openportal candela VRE"			
We should take actions to make our website compliant with these guidelines https://scholar.google.com/intl/en/scholar/inclusion.html			
At a cursory look it seems we should include in our HTML some meta tags containing bibliographic information.
