ISTI Open Access - Feature #21952

Do not duplicate DOIs in case of differences between upper and lower case characters

Sep 02, 2021 12:47 PM - Leonardo Candela

Status:	Closed		**Start date:**	Sep 02, 2021
Priority:	Normal		**Due date:**

Description

I notice that some items display more than one DOI without taking into account that DOI are not case sensitive (am I wrong?).

For instance, see https://openportal.isti.cnr.it/doc?id=people_____::8d385253198aecf4a064d2b4e2e4c38a (this is also funny because one of the two is open access while another is restricted).

One of the two DOIs come from OpenAIRE enrichment.

All in all, I would avoid displaying two DOIs when they are "the same".

This is another example https://openportal.isti.cnr.it/doc?id=people_____::b6441082805923f03cffc4fb512d2e72 ... having a replicated DOI is problematic

#2 - Sep 10, 2021 10:01 AM - Michele Artini

- Status changed from New to Closed

Done.
