Description

The tables of the statistics pages should be changed as follows:

- the Total row should be moved up to make it more evident ... it should be the first row;

- the columns of the graphs with products typologies should be ordered from the most frequent typology to the less frequent;

    - this is only for the following two pages https://openportal.isti.cnr.it/statistics/year-type and https://openportal.isti.cnr.it/statistics/labs-types
