

ISTI Open Access - Feature #24009

Install Matomo for open portal and make use of it

Oct 23, 2022 10:00 AM - Leonardo Candela

Status:	New	Start date:	Oct 23, 2022
Priority:	High	Due date:	
Assignee:	_InfraScience Site Reliability Engineer (SRE)	% Done:	0%
Category:			
Target version:	To Be Planned		
Description			
We are exploiting Matomo for providing OpenAIRE with usage statistics (download and views).			
We are using google analytics for capturing the usage of the service.			
I kindly request to install matomo on premise and use it for monitoring accesses to the open portal instance.			
Matomo is integrated with CMSs including Joomla ...

History

#1 - Nov 18, 2022 09:20 AM - Leonardo Candela

- Priority changed from Normal to High

#2 - Nov 18, 2022 09:27 AM - Michele Artini

I read the mail of our Director, so I removed Google Analytics from the Portal.

#3 - Nov 18, 2022 11:27 AM - Leonardo Candela

I would suggest waiting a few days before removing analytics.

We are declaring the use of analytics in the privacy policy and making it possible for users to 'opt out'.

#4 - Nov 23, 2022 09:19 AM - Michele Artini

I installed the Matomo plugin for Joomla on all the portals (isti, ispc and beta).

But to complete the configuration it is necessary to edit these parameters:

- Tracking Code
- Opt-Out Code (it should be optional, used for override the message in the policy page)

@andrea.dellamico@isti.cnr.it Can you help me?

#5 - Nov 24, 2022 08:38 PM - Andrea Dell'Amico

We do not have a matomo instance yet.

#6 - Mar 25, 2025 11:44 AM - Luca Frosini

- Target version changed from ISTI Open Portal Tasks to To Be Planned
